What we need to help our respiratory patients at Northern Hospital Epping

During 2020 the focus for Northern Health Foundation is to seek funding support to elevate the level of care at Northern Hospital Epping for patients with lung cancer, asthma, pleural disease and pneumonia.

The introduction of an Endobronchial Ultrasound Service or EBUS would enable us to diagnose patients, particularly those with suspected lung cancer, from the point of referral and initiate an optimal care plan immediately. A Northern Health EBUS service would alleviate the need for patients in the northern community and some regional areas of Victoria from being referred to alternate health services for diagnosis.

Northern Health Respiratory Department was established three years ago and during this time, Respiratory Services have quickly become the second largest speciality at Northern Hospital Epping. The demand for respiratory services is growing year on year.

"My team and I work tirelessly to provide the highest quality

and most timely care possible for the northern community. It's frustrating that our patients don't have the same access to diagnostic tests that are standard care at other health services," said Dr Katharine See, Director Respiratory Medicine at Northern Hospital Epping."

Northern Health Foundation needs to raise \$485,454 to purchase an Endobronchial Ultrasound Unit for our Respiratory Services.

Together with your support, Northern Hospital has the opportunity to strengthen and create better outcomes for patients with serious respiratory disease who live in our local and outlying communities.

To learn more about how you can support the funding of Endobronchial Ultrasound Unit or EBUS at Northern Hospital Epping please contact Yvonne Amos, Foundation Director, Northern Health Foundation on 8405 2313 or email Yvonne.Amos@nh.org.au.

Message from the Foundation Director

Yvonne Amos

I am honoured to be sharing with you our supporters an update on the work of Northern Health Foundation and some of our goals for the coming year.

Our focus for 2020 will be fundraising to elevate the level of care available to our respiratory patients. Providing an Endobronchial Ultrasound Service or EBUS is critical in Northern Health being able to diagnose patients, particularly those with lung cancer, from the point of referral and initiate a treatment plan immediately. We need to raise \$485,000 and are asking our community, local business and larger corporations to come together and make this a reality for Northern Hospital and our patients. The introduction of this service will save lives.

Our Northern Health Rural and Regional Patient accommodation has been successfully opened. Our families have been immensely appreciative as it has allowed them to remain close to Northern Hospital Epping to support their loved-ones and reduced the financial burden of an extended stay away from their homes.

Our successful defibrillator campaign has come to an end with over \$300,000 raised to support the purchase of state-of-the-art defibrillators to be installed across Northern Health.

Our events program is gathering pace with our "Walk for Northern" community event coming up on Sunday, 24 May and our annual Research Dinner on Wednesday, 17 June. The ever popular Josie Minniti Dinner Dance is also scheduled for Saturday, 20 June. Please consider supporting our events as they help us to raise funds to enable the purchase of medical equipment and to fund research across Northern Health.

Lastly, to our Patrons, community fundraisers and volunteers thank you for all you do to support the Foundation to elevate the care Northern Health can provide our patients in the Northern Community.

If you would like to learn more about how you can get involved call us on 8405 2897 or email northernhealthfoundation@nh.org.au.

Thank you for your support.

Yvonne Amos
Foundation Director

John Molnar, Foundation Board Chair Order of Australia Medal

Northern Health Foundation Chair John Molnar was awarded an Order of Australia Medal in the recent Australian Honours announced on Australia Day.

John received the award in recognition of his support and services to charitable organisations, including Northern Health Foundation. He is Director of Freemasons Victoria and Master of the Victorian Naval and Military Lodge 49.

"We congratulate John for his great support of Northern Health's patients and services through the Northern Health Foundation over many years," said Siva Sivarajah, Chief Executive Northern Health.

"Your dedication and support is truly appreciated by Northern Health's Board and Executive".

Jennifer Williams Chair Northern Health Board of Directors said, "The award is a significant recognition of your contribution which is so very much appreciated by us all at Northern Health."

"I'm proud to have received this award," John Molnar OAM said.

"Many of my family came from around the northern suburbs and it's been important for me to continue to be involved by supporting Northern Health in continually improving the health services for the northern community."

John Molnar OAM

Salvation Army support safe sleep initiative for babies born at Northern Hospital Epping

When Michelle Morrow, the Unit Manager Maternity, identified that introducing a Pepi-Pod safe sleep space programme at Northern Hospital could prevent infant falls due to co-sleeping, she approached the Northern Health Foundation to seek funding for her initiative.

The Pepi-Pod is designed to sit on a bed alongside a new mother, with safety rail up, so they can attend to their baby's needs in those important first hours or days of life. Pepi-Pods are especially important if a new mother has had a caesarean section as their mobility is decreased."

From a midwives perspective, we encourage mothers to take as much care of their infants as they can, as the time from having a baby to going home can be a very small window.

Last week, Michelle welcomed The Whittlesea Salvation Army 'Sew Beautiful Craft Group' to the Maternity Ward along with Josie Verga, Fundraising and Engagement Manager, Northern Health Foundation.

Joan Mathews, Co-ordinator of the Craft Group learnt about

Salvation Army 'Sew Beautiful Craft Group'

New mother Maraea with baby Ariana in the Pepi Pod

the Pepi-Pod project from Josie and together with her members agreed it was a worthwhile project to support. "We already support Northern Hospital and this is a continuation of what we do."

Michelle was thrilled to welcome the group and be able to thank them personally for their support. At the time of their visit there were six mums using the Pepi-Pods. The ladies met a new mum who was using the Pepi-Pod, and were 'blown away' to see first-hand, the Pepi-Pod in use.

As they explained: "I think the practicality of the pods for new mums is great and to hear a young mum say that she got some sleep with her baby, thanks to the Pepi-Pod is very heartening. It is good to see them in use, because all we knew was that they were containers and now we can see they are so much more than that!"

Joan said that, "The craft group come together to share in fellowship, connect with others and undertake craft projects' to raise vital funds to support their local community including projects like the Pepi-Pod safe sleep space program at Northern Hospital.

Yvonne Amos, Northern Health Foundation Director, said, "The Whittlesea Salvation Army Craft Group left the ward very impressed with the Maternity Wards support and work with new mothers and they will be wonderful community advocates for our service."

Ivanna jumps for joy at winning a new car

Northern Health Foundation Major Raffle was drawn on 16th December 2019 at Northern Hospital with first prize being a Hyundai Kona. Our winner Ivanna, a graduate nurse at Northern Hospital Intensive Care Unit was jumping for joy at the news!

"I didn't believe it...I still can't believe it - it's just so exciting and definitely a dream come true. I bought a ticket because I knew it was going towards a good cause, I didn't expect to win anything but I thought I'd pitch in and here I am!" said Ivanna.

Our other lucky prize winners were: Nicole, winner of the Helloworld travel voucher for a trip for 2 to Cairns; Margaret, winner of the Samsung 50" 4k UHD TV and Hatice, winner of the Mantra Epping Voucher.

Funds raised will support the purchase of a second emergency accommodation property for Northern Health patients and their families who travel from rural Victoria for treatment.

Maxxia Relationship Manager Tim Bond, Northern Health Foundation Director Yvonne Amos and winner of the car and Northern Health Graduate Nurse, Ivanna

Thank you to our major sponsor Maxxia who donated the Hyundai Kona and other prize supporters Helloworld, Eziway and Mantra Epping. A special thank you to South Morang Hyundai who provided the Hyundai Kona for our display at Northern Hospital Epping.

Thank you to all who supported the raffle including our partners and dedicated Northern Health volunteers.

MAJOR SUPPORTER

SUPPORTED BY

The World Health Organisation (WHO) has designated 2020 as the Year of the Nurse and Midwife, in honour of the 200th anniversary of the birth of Florence Nightingale, the founder of modern nursing.

During this special year, Northern Health has so far welcomed 52 graduate nurses and midwives who began their careers in January with an additional 72 to start throughout the year.

Northern Health Chief Nursing and Midwifery Officer, Debra Bourne, said, "It is with great pleasure that we welcome the new graduate nurses and midwives to Northern Health."

"With 2020 being declared the International Year of the Nurse and Midwife, it is an important year for our profession – a time when we will celebrate

and promote the role of the midwife and nurse. The new graduates are part of this celebration and we are excited for all that they will bring and add to this year," she said.

As a tertiary teaching health service, Northern Health offers three streams of Graduate Programs: General Nursing, Midwifery, and Combined Nursing and Midwifery.

The three programs support nurses and midwives as they make their transition from student to registered nurse or midwife, combining theory and knowledge from their studies with practical skills.

Congratulations and good luck to all of our 2020 graduate nurses and midwives – we look forward to working with you throughout your Northern Health journey!

Mother and daughter graduate nurses Rina and Shivani Buldaho

Foundation funds Small Research Grants for big ideas

Professor Peter Brooks, Research Lead - Northern Health and Northern Health Foundation Board Member

"The objective of Small Research Grants is to support research that will lead to benefits for patients within the Northern community and to develop and strengthen research undertaken at Northern Health", said Professor Peter Brooks, Research Lead - Northern Health and Northern Health Foundation Board Member.

The research grants are judged on scientific merit and their potential to increase contributions from Northern Health to the wider research community. The Northern Health Foundation has awarded over \$25,000 in grants.

Congratulations to our most recent Northern Health Grant Recipients Dr David Liu, Senior General Surgery Registrar; Mr Justin Wong, Orthopaedic Surgeon; Ms Shannon Smith, Clinical Nurse Specialist ICU; Ms Caitlin Farmer, Advanced Musculoskeletal Physiotherapist ED; Ms Maureen Goodwin, Clinical Nurse Consultant Respiratory Medicine; Dr Jenny Huynh, General Surgery Unit 2 Fellow.

Thank you for helping us raise the funds to bring state-of-the art Defibrillators to Northern Health

Northern Health Foundation is proud to be part of the Northern Community who has given so generously in support of our defibrillator campaign.

Cardiac arrest doesn't discriminate as Umit Kursat and his wife Tulay discovered. It can affect anyone and it can happen without warning. It was a just another day for Umit and Tulay as they were having breakfast. Suddenly Umit's arms became numb and he began to lose consciousness. Tulay fearing the worst called 000 and an ambulance was sent immediately. Umit had suffered a cardiac arrest and the paramedics used a defibrillator to correct the rhythm of his heart long enough to bring him to the Intensive Care Unit at Northern Hospital.

Umit's life was saved because there was a defibrillator on hand. Whilst early CPR is crucial in the event of a cardiac arrest, defibrillators are ultimately what is needed to restart your heart. For you, it is important these are readily accessible and easy to use for our staff.

The combined efforts of donors, business partners, local businesses and the community at large, has helped us raise over \$300,000 to purchase defibrillators for Northern Health.

A special thank you to Mark Robertson and HotelCare for their support of our campaign. HotelCare recently launched a program to provide hotels in rural and regional Victoria with defibrillators, as

they understand how important they are in saving lives.

An ever-improving health service is no accident – it depends in critical ways on the generosity of donors and supporters like you.

We would like to thank you and our community for helping us raise the funds to have state-of-the-art defibrillators on hand at Northern Health.

MAJOR DONOR:

Umit Kursat, his wife, Tulay and their daughter, Belinay at our 2019 Northern Health Foundation Dinner

WAYS TO DONATE AND HELP SAVE A LIFE:

There are a number of ways you can donate to the Northern Health Foundation and help to save a life.

Donate online at nhfoundation.org.au or call us on 8405 2897 to learn more about ways your business, community group or school can support us.

Bundoora Centre Old Blokes Shed support our local service

Neville Watson has been volunteering at the Old Blokes Shed based at our Bundoora Centre for the last ten years. Neville is 85 years young and still volunteers 3 days a week.

The Old Blokes Shed is just that, a shed filled with old blokes that show the young ones that they can still make a contribution to the community. Providing an outlet for its members, Neville watches on like a proud father as the participants carry out projects and complete activities.

Going above and beyond, Neville takes it upon himself to source materials from local businesses who happily put aside off-cuts of materials for him to collect.

One of the most rewarding roles for Neville is liaising with the Social Support Group, which provides activities and socialisation for older people living in the Northern Suburbs of Melbourne. He welcomes them to the shed and immediately puts them to work on a range of projects.

Neville's wife, Beryl is also a volunteer at Bundoora Centre and plays piano for the Social Support Group and the Ian Brand Nursing Home patients.

Neville's ongoing dedication to the Old

Blokes Shed has enabled participants to experience increased confidence, enjoyment of life, and improved overall wellbeing. Neville has witnessed first-hand the changes in Old Blokes Shed participants and it brings him great joy and satisfaction that he has made a difference to their lives.

Neville is there to welcome everyone to the Old Blokes Shed whether it's to help with projects or for a cuppa and a chat - the shed has become important to the wellbeing of many of its supporters.

The Old Blokes Shed circle includes patients and residents from Ian Brand Nursing Home with visits to the shed providing an opportunity to socialise and contribute to their local community. They have lots of fun chatting and there is a real comradery felt with all that attend.

A range of items made in the Old Blokes Shed are sold in the Busy Fingers Shop at Bundoora Centre, with funds raised supporting their projects and helping to fund medical equipment for Northern Health.

Thank you again Neville for your support of Northern Health.

Neville Watson,
Northern Health Volunteer

Department of Anaesthesia receives a CMAC device thanks to foundation grant

With the help of Northern Health Foundation, the Department of Anaesthesia has successfully obtained a grant for a CMAC video laryngoscope.

Dr David Tsang, Anaesthetist at Northern Health, said that applying for CMAC, a device used to safely manage patient airways, came as a result of the need to provide timely help across the whole hospital.

"One of the greatest challenges in airway management is usually not within theatre itself, but in other departments, like emergency and intensive care. In those departments, they already use CMAC, which differed from the equipment we were using in theatre, so receiving funds for CMAC ensures all departments are using the same equipment, improving airway management throughout the hospital," he said.

New pulmonary rehabilitation service launched at Broadmeadows Hospital

Northern Health has recently launched a Pulmonary Rehabilitation Service at Broadmeadows Hospital which will further support our patients with lung disease. Prior to the launch the service was only available at Northern Hospital and Craigieburn Centre.

The new service is offered in association with DPV Health and offers maintenance classes, exercise programs that can be done at home or alternatively gym sessions at Broadmeadows Leisure Centre.

"This allows patients to manage their lung condition. We see people who come to the exercise sessions with oxygen bottles; we also have oxygen on hand if required by our patients during their exercise program. Patients come to the clinic after being referred by a specialist or following a hospital admission," said Craig Whitbourne, Senior Clinician Exercise Psychology.

Thank You Evening

On Wednesday, 19 February 2020, Northern Health Foundation hosted our annual Thank You Evening, to celebrate and thank our wonderful donors for their ongoing support.

"We were delighted to celebrate the fundraising efforts of our supporters and donors, and their generous contributions to the Northern Health Foundation," said Andrew Williamson, Executive Director, Public Affairs and Northern Health Foundation.

"Through the amazing support from the community, our recent Defibrillator Campaign raised over \$300,000 to purchase state-of-the-art defibrillators for all Northern Health sites, along with implementing many other improvements and upgrades across the health service."

Northern Health Foundation Board Chair, John Molnar OAM, said, "I would like to extend my sincerest gratitude to all of our generous supporters, patrons, corporate partners, dedicated volunteers, Northern Health staff and everyone who has contributed towards our fundraising efforts through donations, grants and support at our events."

Mr Molnar OAM also paid tribute to the late Alexander Robertson who, together with his family, have been supporting Northern Health since Northern Hospital first opened.

"Having grown up locally in Epping, not far from Northern Hospital, Alex was always actively involved in community activities – and was passionate about giving back," said John Molnar OAM.

"His association with Northern Health began when he was approached to sponsor the first Annual Dinner in 1999. This support has continued for over 20 years and we will miss Alex and extend our sympathies to his family and colleagues."

The evening also included a presentation from Dr Katharine See, Director of Respiratory Medicine at Northern Health. Dr See spoke about the Foundation's current fundraising campaign, to support the purchase of an Endobronchial Ultrasound Service (EBUS) for Northern Health, which will reduce patient wait times for lung cancer stage diagnosis and treatment.

THANK YOU

Trudi Hay High Tea at Mandalay Golf Course

Trudi Hay, Patron and Foundation Board Member has been a dedicated supporter of our cancer services for over ten years. Trudi's annual High Tea event was held at Mandalay Golf Course in October last year. The event welcomed over 70 guests and was an emotion packed day as patient advocate, Shane Pope shared his wife's breast cancer journey and how the scalp cooling treatment helped her reduce hair loss.

"It was important for her not to lose all her hair, and it was then I realised how important these machines are for cancer patients," said Shane.

Thank you to Trudi Hay and Core Projects for their continued support of Northern Health's Cancer Services who together raised over \$10,000 from the High Tea.

Trudi Hay, Patron & NH Foundation Board Member, Steve Hay, Nicki Hay and James Thomas from Core Projects

CORE PROJECTS

Bev Carman 10th annual Oaks Day Luncheon

Bev Carman, Patron and long-standing Northern Health Foundation supporter hosted her 10th annual Oaks Day Luncheon in November last year.

Guests celebrated Oaks Day in true form with Kilmore Trackside awash with colour for a day of music, dancing, food and fashion.

This event is an important one for Bev as it means she can continue to support Cancer Services, a cause that is close to her heart. "We've raised over \$7,000 from our luncheon which will support the purchase of a Scalp Cooling machine for Northern Health" said Bev.

Josie Minniti Fun Group Dinner an outstanding success

Josie Minniti OAM together with her family and community supporters held their annual dinner dance in June last year, in support of Northern Health Cancer Services. The event was an amazing success with over 450 guests on hand all enjoying an evening of wonderful food and entertainment.

"Raising money for cancer is always very important - I started because we had a lot of cancer in our family. It is a worthy cause and you can make a difference," said Josie.

Thank you to Josie and Rino Minniti, their family, army of volunteers and sponsors for their support with over \$20,000 raised to purchase two oncology treatment chairs and defibrillator for Northern Hospital Oncology. Funds were also directed to support a Scalp Cooling Machine for Craigieburn Centre.

You're never too young to start fundraising

St Catherine's Primary
School Year 3 students
Mischa, Sara and Victoria

The spirit of philanthropy is alive and well in the youth of our community. Recently, three young students from St Catherine's Primary School in Lalor West organised their own fundraising stall in support of the Foundation. When asked why they wanted to give back to their local hospital here's what they had to say.

Mischa said, "I like to help other people and I have allergies so I know what it's like."

Sara said, "To help all the people that have a hard time in the hospital."

Victoria said, "I wanted to raise money for the Northern Health Foundation because they helped me fix my fractured finger."

Thank you to Mischa, Sara and Victoria for your support.

Mischa - I like to help other people and I have allergies so I know what it's like.

Sara - To help all the people that have a hard time in the hospital.

Victoria - I wanted to raise money for the Northern Health Foundation because they helped me fix my fractured finger.

Renal Dialysis Patients benefit from new blanket warmer at Broadmeadows Hospital

Barb, Rosemary, Jeff, Lindsay, Vicki and Dick with Broadmeadows Dialysis patient Deidre Benjamin.

The Australian Lions Foundation, Lions Club of Glenroy and Glenroy RSL have joined forces to support the Renal Dialysis Unit at Broadmeadows Hospital thanks to Northern Health Volunteer Vicki Vernon.

Vicki's husband Alan, was a dialysis patient at Broadmeadows Hospital who lost his long battle with kidney disease in 2017.

Vicki recognised the need to have a blanket warmer for the ward as during dialysis treatment patients often feel cold making it an uncomfortable experience. With treatment lasting up to four hours a day with a minimum of three sessions each and every week the benefits of a warm blanket are immeasurable for our patients.

Vicki reached out to Lindsay Knight, President of the Lions

Club of Glenroy, for support and together with the Glenroy RSL and the Australian Lions Foundation the funds were raised to purchase the blanket warmer.

Both the Lions Club of Glenroy and Glenroy RSL have members who receive dialysis treatment and rehabilitation at Broadmeadows Hospital, which was one of the many reasons why they supported this initiative.

Yvonne Amos, Director, Northern Health Foundation, said the donation of a blanket warmer in memory of Alan Vernon will improve the level of comfort for our patients receiving treatment. Thank you again to all involved, especially Vicki Vernon who supported the project in memory of her husband Alan," she added.

80's cover band, Stand and Deliver, kept guests entertained all night long!

Northern Health Foundation Dinner raises **\$95,000** for defibrillators

On Saturday, 16 November 2019, Northern Health Foundation hosted our 80's themed Annual Dinner, raising funds for defibrillators across Northern Health.

The dinner was hosted by iconic Australian pop group The Chantoozies, with our guests arriving wearing a myriad of 80's outfits complete with boom-boxes, crimped hair and scrunchies! Even our volunteer workforce got in on the act and all in support of Northern Health Foundation.

Guests were entertained until the early hours by Australia's most loved and in demand 80's cover band, Stand and Deliver, who took our guests straight back to the 80's with their amazing talent playing the best the 80's had to offer!

Fundraising on the night included our live auction, raffles and silent auction with the event raising an impressive \$95,000 to support the purchase of state-of-the-art Defibrillators for Northern Hospital Epping, Broadmeadows Hospital, Bundoora and Craigieburn Centre.

This night was made possible by our generous major sponsors including Casa D'Abruzzo, 1ALP, ISS Facility Services, Healthcare Imaging Services, ALH Group, Drums Hotel, Riverlee and Turosi Food Solutions group and 13cabs.

Thank you and we look forward to welcoming you to our 2020 Dinner to be held on Saturday, 24 October 2020.

Craigieburn Day Oncology Cancer Patients to benefit from Scalp Cooling funding

Thanks to the collaboration of our donors and patrons, the Foundation has purchased a scalp cooling machine for Craigieburn Centre's Day Oncology Unit. Until now patients have had to travel to Northern Hospital to access scalp cooling which is provided at the same time as their chemotherapy treatment.

Just one of the side effects of cancer treatments is hair loss, which for a patient is a constant reminder of their diagnosis. For a patient to be able to retain their hair means the opportunity to regain some control in their lives, maintain privacy and encourage a positive attitude towards treatment.

Thank you to our patrons Trudi Hay, Bev Carman and Josie Minniti OAM, Dry July Foundation, Breast Care Support Group and Joy Wallace for their generous support of Northern Health's Cancer Services.
